Here are the reasons why no one can wrong you, according to the video:

- When you feel wronged, it's an opportunity to use the worksheet and identify what you're thinking and believing [15:44].
- Discovering that someone was teaching you something, rather than wronging you, can break the trance of feeling wronged [16:51].
- The truth sets us free [17:08].
- When your mind matches your true nature, it's the end of separation and the beginning of life on this planet [17:22].
- It's a whole new way of being, life without problems, lived out of wisdom [17:28].
- Believing thoughts don't allow you to realize your beauty [17:53].

The video references a "worksheet" in the context of Byron Katie's method called "The Work." While the video itself doesn't explicitly show the worksheet, based on information about "The Work," it typically includes sections to:

1. **Identify a stressful situation and the thought** you have about it.
2. **Inquire into that thought** using four questions:
    - Is it true?
    - Can you absolutely know that it's true?
    - How do you react, what happens, when you believe that thought?
    - Who would you be without[1] that thought?
3. **Turn the thought around** to find the opposite and see if that turnaround is as true or truer.

So, the worksheet guides you through a process of identifying a stressful thought and then questioning its validity and the impact it has on your life.
