Rick Hansen - Other Practices - Anger & Love

Wednesday, March 25, 2020 6:56 PM

Additional Practices
Accumulation of the day
Okay to let go
Okay to let in
Combination of peacfulness and lovingness togheter
At peadce with a radiant heart

Speak to Anger & Love
Be with people - shake hands
People not following the rules
Annoyance
Forms of righteousness
Can you include it and allowing it
Without shaming yourself for having it
Approprioate to express it?
Not agree with my take - ask in realtime -do I really need to get into this?
What about this? Add one more thing - arghhh
They are carrying boxes too.
Helpful to think about the other person
She is carrying a lot of boxes - do we need to get into it
Awareness of anger -
Anger is honeyed tip with a poinson barb
Hot coals with bare hands - both get burned
Read or see the news - outrage
Haiti - in a cold rage the whole time
Cold rage - calm - felt healthy
Find yourself stunned with outrage
We do not want to let it end their

Love is the antidote to anger
We don't put htem out of our heart
Disengaged from an angry reaction
Are thye scared too.
Are you going to hurt me?
We can soften that reaction
They are carrying boxes too?
That feeling of including all of humanity
Important to get thru this
Sense of compassion
The weight the load
Friendlyness

Poem - Cherry Blossoms
Beautiful and wonderful
Impermanent

There are no strangers
We are all in stunning beautify
Arising and passing away
Storm of pandemic
We will get to the other side
Reflect on what we did or didn't do
Find a glad neess and self respoect

What is under my control?
Let things go
See the good in the other person
Open it up to all
Mindfullness of anger
Taking refuge in you own good heart
Recognition of they are carying
To compassion -- kindness= vast love again and again
Being at peace with a radiant heart
It is a refuge - stable platform - more effectively - from that base
As we do that more and more we also become a refuge for others
They can be refuge for us.

Balance of Anger & Love

Reaction from viewers
World is figuring out impermanance - reason for scared
Stages of dealing with dying
John Piega - Ways of Learning - 1 Assimilation - incorporate new information -- 2 Accomidation - shift world view - left impermanance and interdependance - eatting away of our…. Trend for the past 40 years - when storms come - like now - the building starts to fall over - world view - indifference - do not vote - strug - dead down the road -
People do not learn their lessions - what can we do.

Carol -
Anger going - not helpful - not let people run rent free in our head - packages we carry - kitchen table wisdom - get rid of the things that do not make sense - clear the decks - make things easier

Knowing what you know and moving on
Develop a view that is helpful - easy to get caught in that - we want to convince ourselves - cold rage - moral confidence - no added risk and a lot of risk - might take changces - adding more risk someone might die - no added risk unless I have too -- it is not stressful - I feel safe - convience and preferance - as place for that - morality - sila - restrainght - important part of practice - not a need to prove it to them - interestion of anger and love - moral - not smug - confidence -see what feels like - rest in that -

Michael
Missing the human touch - still social engagement - how we need that in each other -
Need for touch

Naomi
Some carrying a lot of paackages - anger becomes disruptive - how to deal balance - self protect and still have compassion - Mt Whitney - iced in - hazardous - we couldn't lallygag around - we need to get down to business - I can't engage in this - I can't can say with tender with grave and dear - can be pricker;

How are we bulding our capacity to be un erkable!!!!
How can you disengage from that
What are the wellsprings - what do you need - more protien or sleep or practice - keep practicing in community

Reflecting on all the people - 180 million grapping with this around the world
Take heart in practicing
Our opwn goodness
Might get raggid - we will still be here -
Weird time is deeply interesting --
Amazing - such an opportunity for learning --
